

LEVAN GULBATASHVILI

PROFESSIONAL SUMMARY

I'm a Junior Web Developer passionate about creating dynamic, user-friendly web applications. With hands-on experience at Tegeta Motors, I've built a solid foundation in JavaScript, HTML, and CSS, focusing on turning complex ideas into simple, intuitive designs. My expertise in React and Node.js helps me deliver efficient, scalable solutions that enhance user experience. I love collaborating with cross-functional teams, working together to bring projects from concept to reality. I'm always looking to push the boundaries and improve my craft, committed to writing clean, high-quality code that makes a difference.

WORK HISTORY

JUNIOR WEB DEVELOPER 09/2020 to 04/2022 Mega Mall

- **I've taken the lead in creating** detailed wireframes, site maps, and content inventories, guiding website designs from the initial idea stage all the way to implementation.
- **I've planned and executed** web development projects, turning mockups into dynamic and user-friendly web experiences with HTML, JavaScript, AJAX, and JSON.
- **With a strong background in JavaScript and Object-Oriented Programming**, I focus on crafting designs that are both functional and visually appealing.
- **I've worked on optimizing** page layouts and navigation tools to consistently exceed user expectations and improve the overall user experience.
- **I also design responsive website interfaces** using HTML and CSS, ensuring they work smoothly across all devices.
- **Collaborating with cross-functional teams**, including marketing, I make sure that our web development projects align with the overall goals and timelines, leading to cohesive and successful outcomes.
